EDUCATION

University of California, Berkeley, Haas School of Business **May 2027**
Master of Business Administration (MBA)

- Pursuing AI for Business Certificate; Coursework on AI Safety, Data & Decisions, Product Management and Pricing
- Vice President - Haas AI Club; Project Manager – Haas Tech & AI Summit

SASTRA University, India **May 2016**
Bachelor of Technology (B.Tech), Mechanical Engineering

EXPERIENCE

Volt AI, San Francisco Bay Area, CA **May 2026 – Present**
AI video intelligence platform for incident detection (Series A Company)

Product Management

- Cut an estimated 2 to 4 hours of manual work per deal by automating the contract lifecycle across 3 document types, from generation through signature routing and executed-copy filing, triggered off CRM stage changes
- Built a scored evaluation for a customer-facing AI status summary, grading accuracy, completeness, and PII safety across 9 live test cases, and blocked a lower-cost model from shipping until it matched the incumbent
- Ran an agent-readiness review across ~79 product surfaces, then set a build standard that took one workstream from 0 of 9 to 9 of 9 agent-executable actions

Uniblox, Seattle, WA (Remote) **Apr – Jun 2025**
InsurTech AI platform to automate group insurance enrollment and underwriting

Pre-MBA Product Management Role

- Analyzed and translated case analysis data into LLM fine-tuning that resulted in 85% less infrastructure costs.
- Owned delivery for an AI-powered document parsing workflow, partnering with engineers and data scientists, ran standups, and shipped iterative improvements that reduced underwriting time from days to minutes.

Centre for Gender and Politics, India **Jul 2021 – Mar 2025**
Mission-driven Platform focused on gender inclusion in South Asian politics

Cofounder and Head of Projects

- Validated market need through qualitative user research and partnered with JP Morgan engineers to build a scalable CMS platform that democratized political literacy resources to 10k+ aspiring women leaders.
- Developed playbooks and implemented OKRs for globally distributed teams in 14 countries by standardizing execution and enabling delivery of 15+ projects, influencing 5+ UN consultations on women's leadership
- Scaled the platform's reach to 8 South Asian countries by building regional partnerships with 16+ organizations, localizing platform features, creating leadership podcasts, and supporting broader adoption for the projects.

Central Square Foundation, India **Nov 2019 – Jun 2021**
Project Manager (Nov 2020 – June 2021); Project Management Consultant (Nov 2019 – Oct 2020)

Gates funded philanthropy, deputed to consult with School Education departments in two Indian states

- Designed and synthesized large-scale user research (6,600 parent interviews across 33 districts) into actionable product requirements and roadmap priorities, informing digital learning solutions serving 6M students.
- Owned product customization roadmap and GTM execution for a WhatsApp learning bot by collaborating with engineers and educators to ship multi-lingual and content features, maintaining continuity for 3M students.

School Education Department, Govt of Andhra Pradesh, India **Sep 2018 – Oct 2019**
Project Management Consultant

- Scaled an AI-based personalized learning solution to 500 schools by designing success metrics, rollout plans, and cross-functional execution across 5 tech partners and 3 government departments.
- Prevented 60,000+ students from dropping out by partnering with Microsoft to design a predictive ML model using multi-source education data and launching a teacher intervention app.

ADDITIONAL

- **Leadership:** Co-designed a custom-GPT for a UN convening; Steering Committee Member, UN's AI School
- **Skills:** A/B Testing; SQL; User Research; Workflow Automation; Coding Agents; Excel; Dashboards
- **Interests:** Backpacking across 14 countries and 20 Indian states; Building [apps](#) for personal productivity
