---

## EDUCATION

---

**University of California, Berkeley, Haas School of Business**

**May 2027**

**Master of Business Administration (MBA)**

- Pursuing AI for Business Certificate; Coursework on A/B Testing, Product Management
- Project Manager – Haas Tech & AI Summit; Member at Haas Tech, AI and Product Management Clubs

**SASTRA University, India**

**May 2016**

**Bachelor of Technology (B.Tech), Mechanical Engineering**

- Co-founder, Entrepreneurship Club; Organized 5 startup events including TechStars' Startup Weekend
- 

## EXPERIENCE

---

**Uniblox, Seattle, WA (Remote)**

**Apr – Jun 2025**

*InsurTech startup building an AI powered platform to automate group insurance enrollment and underwriting*

**Pre-MBA Product Intern**

- Led 3 ML engineers for an AI-powered product, which automated messy census file parsing for brokers and carriers; leading daily bug triage and LLM fine-tuning that cut compute load by 85% and stabilized customer workflows

**Centre for Gender and Politics, India**

**Jul 2021 – Mar 2025**

**Cofounder and Director**

- Co-founded CGAP as the first-ever think tank exclusively focused on gender inclusion in South Asian politics, designing the operational model, assessing and navigating geopolitical risks, regulatory shifts, and policy trends
- Defined product vision and executed partnership with J.P. Morgan to build a first-of-its-kind online repository for aspiring women politicians in South Asia, creating a scalable CMS platform to democratize access for 10K+ users
- Developed playbooks and implemented OKRs for globally distributed teams, standardizing execution and enabling delivery of research and awareness projects, influencing 5+ UN consultations on women's leadership
- Mobilized and coordinated 140+ high-performance volunteers and cultivated partnerships with 16+ organizations, aligning diverse stakeholders to scale the organizational reach to 8 South Asian countries

**Assuretrac, India**

**Apr 2024 – Mar 2025**

*B2B tech services company with \$100K monthly recurring revenue, serving insurance brokers in the U.S.A*

**Strategy and Operations Consultant [Part-time]**

- Conducted operational analysis to redesign core processes and develop SOPs, driving 30% efficiency improvement and enabling market expansion into two new sectors

**Central Square Foundation, India**

**Nov 2019 – Jun 2021**

**Project Manager (Nov 2020 – June 2021); Consultant (Nov 2019 – Oct 2020)**

*Gates funded philanthropy, deputed to consult with School Education departments in two Indian states*

- Spearheaded product customization (content pacing, multi-language, low-data settings) by collaborating with engineers and educators for a WhatsApp learning bot during COVID-19, maintaining continuity for 3M students
- Executed large user research across 33 school districts (6,600 parent interviews), generating insights on radio, TV and internet access that guided policy and digital learning product strategies for 6M students

**School Education Department, Govt of Andhra Pradesh, India**

**Sep 2018 – Oct 2019**

**Consultant, Project Management Unit**

- Orchestrated a pilot project with 3 tech vendors, 2 consulting firms, and 3 govt depts; developed performance metrics and policy framework that enabled scaling of an AI-based personalized learning solution to 500 schools
  - Led partnership with Microsoft to design a predictive ML model using multi-source education data to identify potential school dropouts and rolled out a teacher intervention app, retaining 60,000+ at-risk students
- 

## ADDITIONAL

---

- **AI for the UN:** Co-designed a custom-GPT for a UN convening on gender equality; Co-facilitated training on AI for social impact as a Steering Committee Member for UN Women's Asia-Pacific AI School
- **Skills:** Azure DevOps; Lovable AI; Claude Code; CustomGPTs; Excel; User research; Wix; Canva
- **Interests:** Backpacking across 14 countries and 20 Indian states; Aspiring runner - training for 10K
